Project Description

Airport Improvement's

Airport Improvements

- Parking apron expansion
- Run-up area at rwy. 28
- Replace fuel system
- Replace airport beacon

CIP DATA SHEET				
AIRPORT	Prineville Airport	LOCID	3S9	LOCAL PRIORITY
PROJECT DESCRIPTION	Apron Expansion, PH I		PLANNED YEAR TO CONSTRUCT	2016

JUSTIFICATION:	Construction of aprons in two areas are proposed. First is expansion of itinerant aircraft tie-down apron in the terminal area. Additional tie-downs are needed to accommodate demand. Second element of construction is a run-up apron on Taxiway A connection to Runway 28 threshold which is needed for safety to eliminate existing head-to-head aircraft taxiing conflicts.
----------------	--

COST ESTIMATE:				
ADMINISTRATION:	\$ 15,000	1. Construction	\$ 1,250,000	4 \$
ENGINEERING:	\$ 175,000	2	\$	5 \$
INSPECTION:	\$ 160,000	3	\$	
			TOTAL:	\$ 1,600,000

Project Description

Airport Improvement's

Airport Improvements

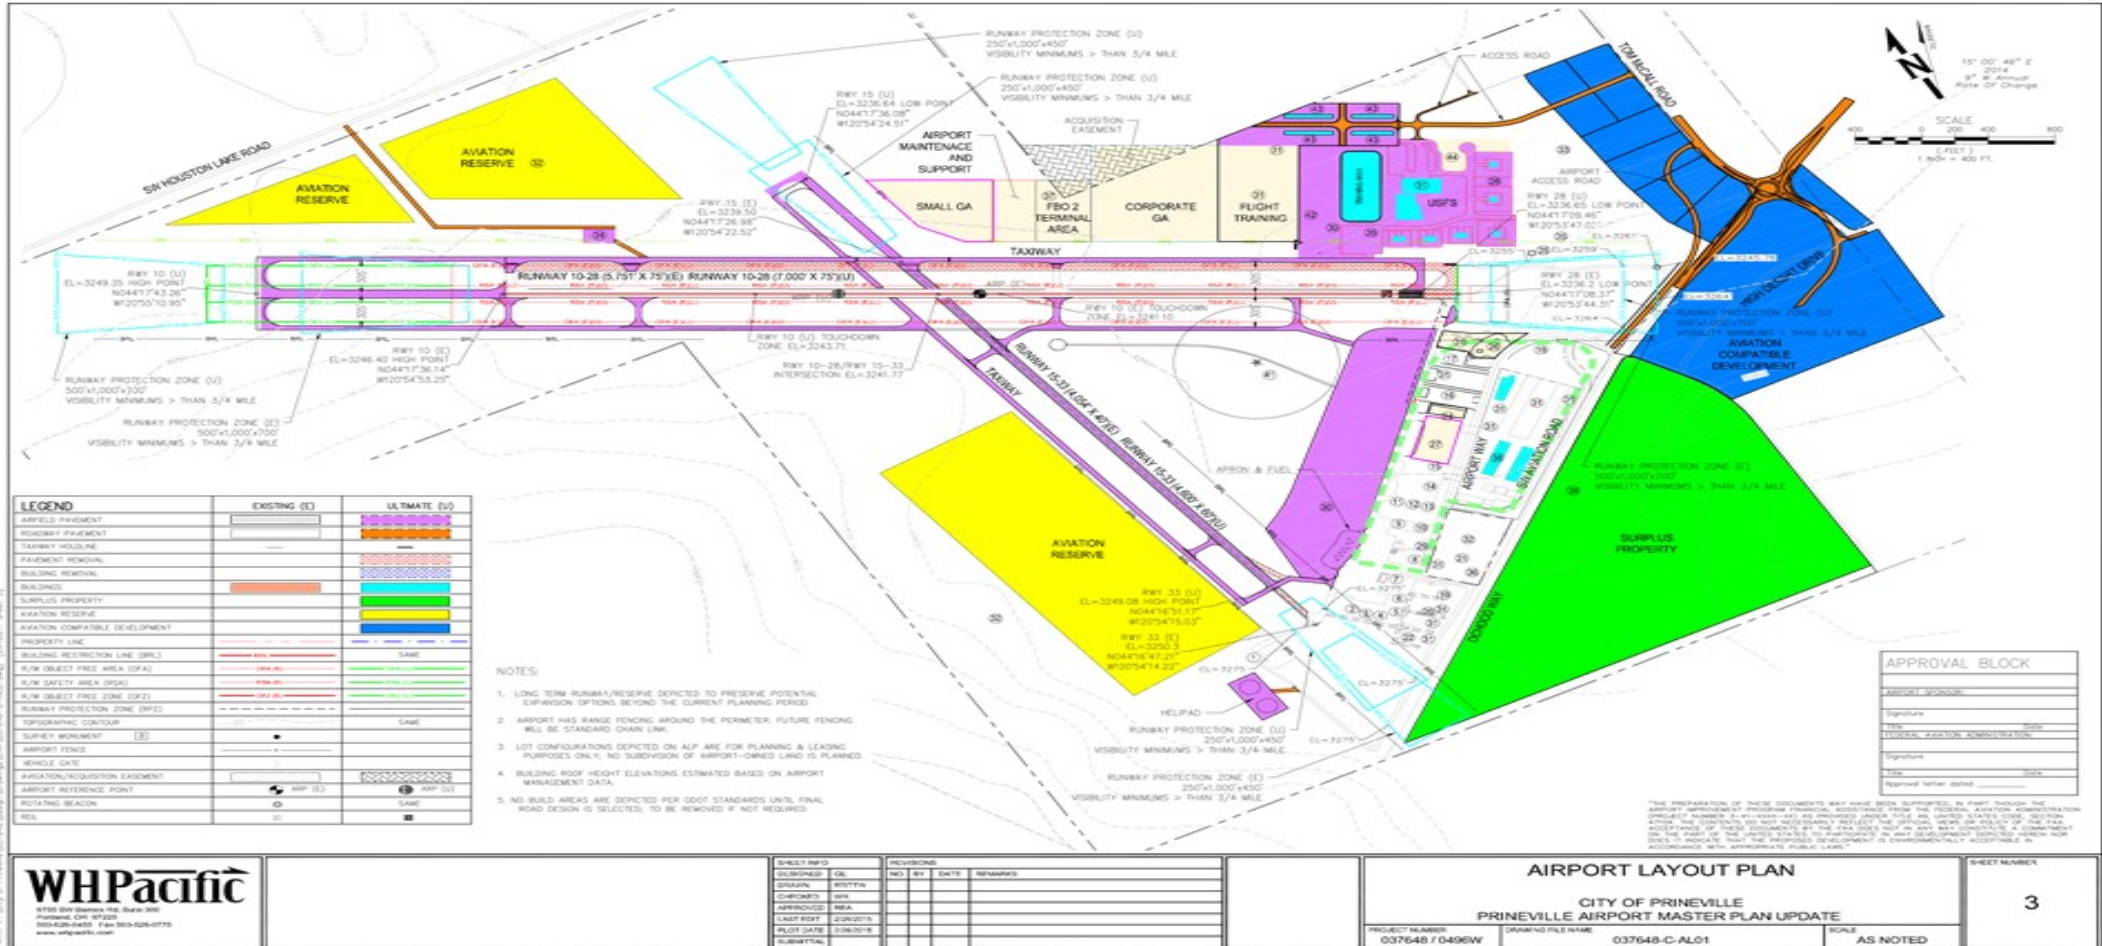

Replace fuel system

Current fuel tank location
35 yr. old underground
Steel-Single Wall

Proposed fuel tank installation

Step #1-Master Plan Complete

Prineville Airport – Present time

2011 - 2016

Eight (8) Private Aviation Businesses

High Desert Aviation

Aerotechnic L.L.C.

Project Review

Selection Considerations

- **Produces Jobs**
- **Economic benefit**
- **Greatly improves safety**
- **Construction Ready**
- **Long life expectancy**
- **Environmental**

Project Review Selection Considerations

- Application review scored 88/90 points
- Tied for top scoring project in the state
 - Top scoring project in the region
