STIF Discretionary Project Review

Project 1

Central Oregon Project List

CAC Transportation Inc. - Central Oregon Breeze Bus

Given the project selection criteria and your local knowledge, do you support funding this project?

Yes

No

Please provide your reasons for answering yes or no.

Many Central Oregonians use this service. It provides access to the Portland Airport and many other key services in Portland.

Do you have additional feedback about the reviewed project that the Oregon Transportation Commission should consider in making their final determination?

Project 2

Central Oregon Project List

City of La Pine - La Pine Station

Given the project selection criteria and your local knowledge, do you support funding this project?

- Yes
 No

Please provide your reasons for answering yes or no.

This is a very well-rounded project that will deliver a lot of transportation-related benefits as well as broader community benefits. This will be something of a community hub for La Pine and south Deschutes County residents. This also complements La Pine's work on bike and pedestrian infrastructure, and will serve as something of a mobility hub. It will also be beneficial to have a park-and-ride facility closer to downtown La Pine.

Do you have additional feedback about the reviewed project that the Oregon Transportation Commission should consider in making their final determination?

This is one of three projects that COACT believes will have the most impact for Central Oregon. The others are the CET Community Connector Service and the Hawthorne Station Renovation projects.

Project 3

Central Oregon Project List

COIC - Planning Feasibility Study for Klamath Falls to Redmond

Given the project selection criteria and your local knowledge, do you support funding this project?

- Yes
 No

Please provide your reasons for answering yes or no.

This will help fill the gap in service between Klamath Falls and Central Oregon. It is a small amount of investment to help meet a state and regional network need.

Do you have additional feedback about the reviewed project that the Oregon Transportation Commission should consider in making their final determination?

Project 4

Central Oregon Project List

COIC - CET Community Connector Service

Given the project selection criteria and your local knowledge, do you support funding this project?

- Yes
 No

Please provide your reasons for answering yes or no.

This is a very important project as these are the most-used routes on the Cascades East Transit system.

Do you have additional feedback about the reviewed project that the Oregon Transportation Commission should consider in making their final determination?

This is one of three projects that COACT believes will have the most impact for Central Oregon. The others are the La Pine Station and the Hawthorne Station Renovation projects.

Project 5

Central Oregon Project List

COIC - Hawthorne Station Renovation

Given the project selection criteria and your local knowledge, do you support funding this project?

- Yes
 No

Please provide your reasons for answering yes or no.

The region and Cascades East Transit need this project. We have been hearing about the need for upgrades to this facility for a long time. Improved facilities are the key to getting more people to use transit. These upgrades will also allow Hawthorne Station to serve more as mobility hub.

Do you have additional feedback about the reviewed project that the Oregon Transportation Commission should consider in making their final determination?

This is one of three projects that COACT believes will have the most impact for Central Oregon. The others are the La Pine Station and the CET Community Connector shuttle projects.

Project 6

Central Oregon Project List

Harney County - Intercity Weekly trips between Bend and Burns

Given the project selection criteria and your local knowledge, do you support funding this project?

- Yes
 No

Please provide your reasons for answering yes or no.

This is a very important service for that community, which has a low-income and aging population. It provides access to medical services, shopping, and other essential services for those riders.

Do you have additional feedback about the reviewed project that the Oregon Transportation Commission should consider in making their final determination?

Project 7

Central Oregon Project List

TAC Transport Inc. - Coos Bay-Eugene-Bend Vehicle Purchase & PM Funding Request

Given the project selection criteria and your local knowledge, do you support funding this project?

Yes

No

Please provide your reasons for answering yes or no.

This is a well-used route. It connects the coast to Central Oregon, and Eugene is a key destination for Central Oregonians.
